

# Watch Info #1

Hello Everyone,

I have good news on this report. This is the first **Watch Info** and not a **Watch Alert** which I hope it is the first of many .I have received the latest activity report from Jane and our efforts may be paying off. Since my last “**Watch Alert**” which was on April 6<sup>th</sup> which was a case of vandalism, we have had only a total of 10 calls. From April 6<sup>th</sup> to May 17<sup>th</sup> most of the calls are for noise disturbance, traffic stops, and misc. complaints. No reports of break-ins, stolen property, vehicle break-ins or theft, or property damage. We can only go on what is reported. I will not list the 10 reported items because they are really minor complaints. I hope this is from all of our efforts, and also the word is out that our neighborhood watch is up and active. Whatever the reason let’s keep up.

Also be aware of walk-up and drive-by salesmen. There was one guy who was driving thru our neighborhood trying to sell music from his car. Personally I don’t like anyone who walks up and sells anything. I advise to beware of such persons. Do not allow these persons into your homes. They could be scouting for potential target locations or items.

Again let’s be watchful when we are out and about. Let’s keep our vehicles and doors locked when we are inside. When not in your garage working, keep it closed. Let’s keep up the good work and get the word out to others in our neighborhood. I’ll be in touch!
